

CONTEX

Infact, despite Europe being considered to be one of the most advanced regions in the world with regard to gender equality, many gaps need to be filled when it comes to gender-based violence, the gender pay gap and the presence of women in positions of responsibility.

Particularly, the data of the 2019 report on equality between women and men in the EU - where the Commission highlighted that women wages are on average 16% lower than those of men and only 6.3% of CEO positions in major EU listed companies held by women- show that a momentum is needed for this process, otherwise it will take more than a century to achieve gender equality.

The European Commission, through the Gender Equality Strategy 2020-2025, has defined the key actions for the next 5 years that ensure a perspective of equality in all EU policy areas.

Erasmus+ strategic partnership project

GOAL

The overall intention of the project is to provide an opportunity for multipliers, such as educators, youth workers, social workers - who directly work with women from different vulnerable groups - to access the different set of tools and methodologies for women empowerment and gender mainstreaming.

SPECIFIC OBJECTIVES

- questioning rigid gender norms and imbalances of power which disadvantage women and girls and generate discriminations in societies;
- raising awareness on gender based violence and to prevent power abuse and exploitation of girls and women;
- promoting gender equality in general through the most updated EU and UN policies and strategies and statistics;
- motivating entrepreneurship among the vulnerable communities of girls and women

PARTNERS

The partnership aims to reinforce the awareness of the importance of equal opportunities to build a fairer and more prosperous society for all.

This strategic partnership involves partners from six European countries:

- Anthropology Közhasznú Egyesület (Hungary)
- Asfar (United Kingdom)
- Associazione Sud (Italy)
- I-Box Create S.L. (Spain)
- InterCollege APS (Denmark),
- International Internships srl (Romania),

EXPECTED RESULTS

During the 32-month duration of the project, the four participatory visits, the international training course and a catalogue of best practices will offer opportunities to deepen understanding of the topic, develop broader knowledge, skills and competences to foster social development and improve female entrepreneurial performances in Europe. Moreover, a commitment paper will be produced to engage stakeholders, such as organisations and businesses, and encourage them to take active measures for promoting gender equality.
